

**Who are we** to commit to a mission so high as to create an evolutionary difference for humanity?

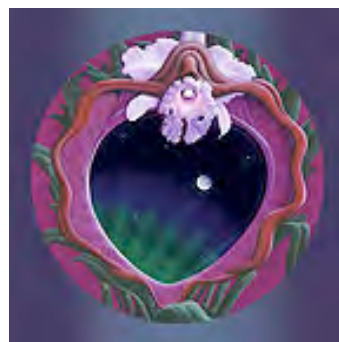

Silver Ra Baker is a good example. He is an extraordinary visionary artist dedicated for 30 years creating art works of consciousness. Baker is actively on the path of Life Mastery drawing on deep rooted spiritual heritages and modern core transformational tools, which he shares both in his visual art and through his life and teachings. Guided by Spirit, he applies his artistry to expand the viewer's consciousness through use of symbol, beauty, and sacred geometry. In his hands the airbrush becomes a 'tool of the light', creating images that invoke and conjure visions of vast human and planetary potential. Silver approaches his craft through meditation, dream work, intentional prayer, and ceremony; consciously choosing to bypass the chatter of the reasoning mind and tap into the reservoir of timeless, universal truths known by the unconscious mind. Through his work, Silver exhibits the ability to reach into inner realms where he harvests images and visions of intuition, personal power, and a natural, integrative spirituality.

Silver Ra's paintings exemplify today's flowing stream of humanity's evolutionary awakening and transformation towards a peaceable existence. His images open windows and portals of consciousness through which the viewer can reach within, become one-hearted and embrace an illuminated world in a Beauty Way.

I know this to be so, because when I participated in a spiritual workshop with Silver in 1987, he granted me permission to photograph one of his pieces that I was attracted to. I applied it's compelling "earth, moon and spread winged owl in outer space" imagery to my logo in business for many years. Amazingly, this powerful image also enabled me to anchor and focus forward in my darkest night of the soul experiences. I, Aeron Goldheart am in great appreciation today and still display his work on my wall (as shown below on page 2).

Tesla Energy Lights is a proud sponsor of "The Global Peace Project" and "Journey of Awakening" art exhibit. Meet Silver Ra as he will present 50 originals including the unveiling of his latest painting with the "Peace Child". Several examples of his work are shown below. Enjoy Silver Ra's sharing intimately heart to heart in a video interview previewing his gift of the Peace Child being seated into earth by the universe. The interview may be seen at [TeslaEnergyLights.com](http://TeslaEnergyLights.com)
